

TESTIMONIALS

"I highly recommend eVISION to my friends. They understand my obstacles and give me support when I need it. The company's professional quality and flexibility is why I am not only a client but a trainer too!"

- Abdirizak Ahmed
Client and User Support Trainer

"eVISION is a total solution provider for assistive devices that matter. In addition, they have friendly and professional staff providing timely and excellent quality service."

- Dexter Waldron
Client

"Many of my students are visually and hearing impaired; I teach them how to adapt to the hardware and software of today's technology. As they now use their computers' Word Processors, E-mail, Chat Messengers and the World Wide Web, the blind thank me for being able to 'see', the hearing and speech impaired say how wonderful it is to be 'talking' and 'hearing' even if it is with a machine. What they don't know is how much they are teaching me about the reality of life and humanity that I have always taken for granted! I share Helen Keller's sentiment when she said: 'One can never consent to creep when one feels an impulse to soar!' Through eVISION's training program, I can continue to give my students the opportunity to 'see, talk and hear'."

- Lee Quesada
User Support Trainer
